

Davie County High School Re-Purposing Project (Potential Amenity Ideas For Your New Park)

November 7, 2016

Davie County Residents,

Your NEW Recreation Park Complex is coming soon! As Director of Davie County Recreation and Parks, I will be honest and forthcoming to each and every resident of Davie County. We have a rare opportunity by taking an existing high school and turning it into a vibrant recreation park that will create lifelong impacts to Davie County families and visitors for years to come. That being said, in order for this exciting new park to take shape, it will require your “Input”, “Feedback” and “Buy-In”.

In the coming months, all residents of Davie County will have four (4) different opportunities to participate in the design process of your new park:

- 1- Citizen surveys (mail-in, online submittal or through public event engagements),
- 2- Public input meetings (3 meetings in a group-setting style),
- 3- Park Design Charrettes (putting the park puzzle together) and as a final buy-in,
- 4- Your Park-Your Vote (residents will vote on the two conceptual park designs that are created using your input and feedback).

Before, we get started on this exciting endeavor, Davie County Recreation and Park staff has put together a list of potential amenities that could be included in your park. We ask all residents to take a few minutes and view the pictured line-up below and discuss what you like. Please note that the list provided is in no order of favoritism nor is it a final listing. There may be other amenities that you may have in mind. Think about you, think about your family, from infants to active older adults. IMAGINE and DREAM.....Remember this is your park and something that all Davie County residents can be proud of!

Finally, please share this link from our Webpage or Facebook page to your friends and family of Davie County.

Respectfully,

Paul A. Moore, CPRP
